# Case Study: Traditional Extraction vs. Sovereign Regeneration

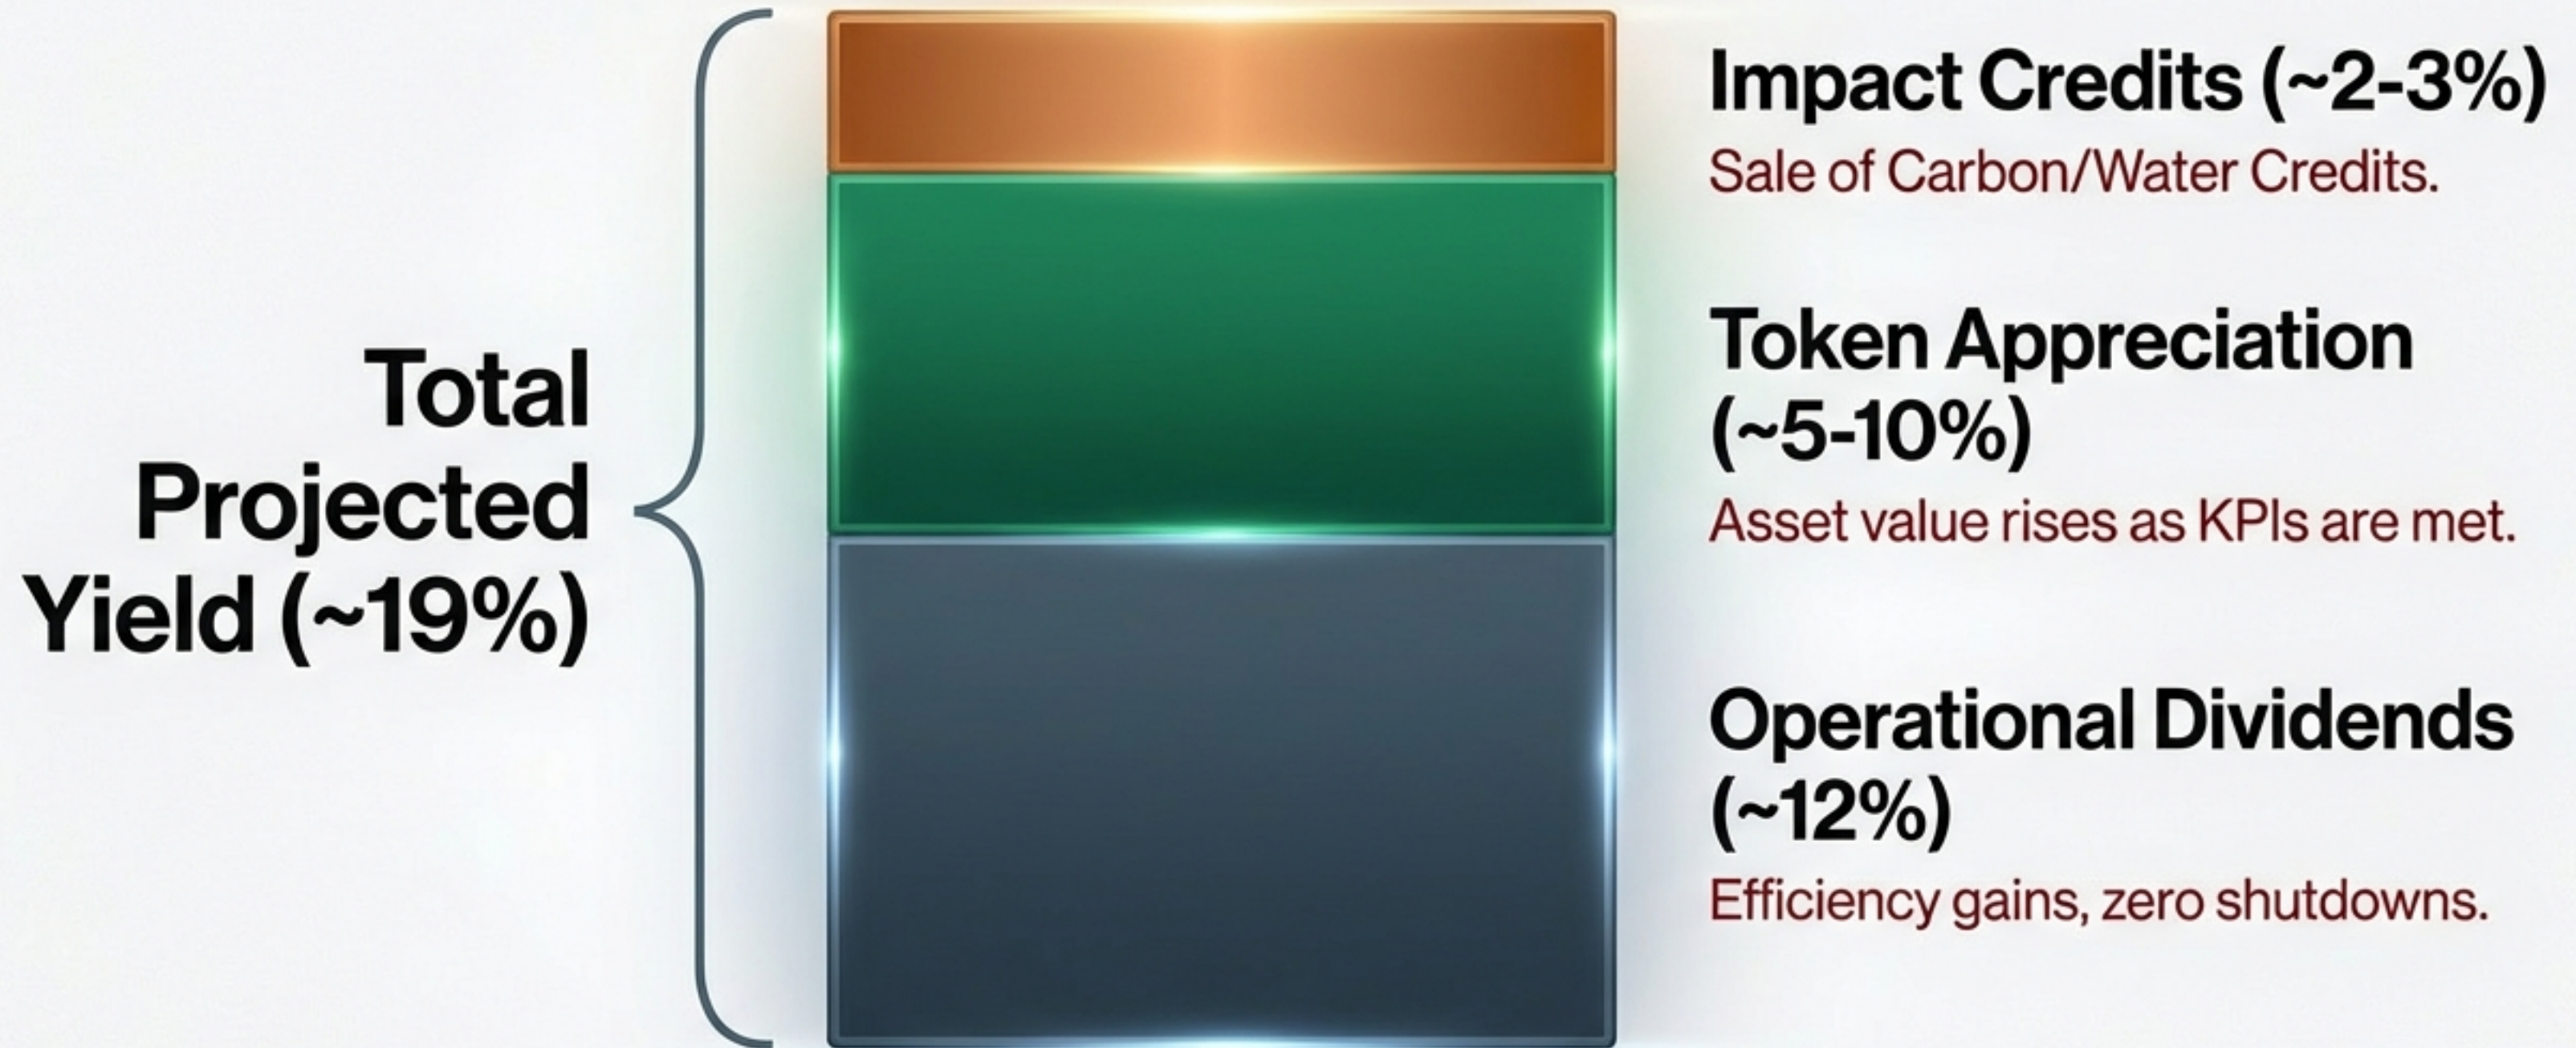

Traditional Mining	PHREVO Standard
	
Chemical Leaching.	Bioleaching (Microorganisms)
Community Protests & Halts	Community Ownership & Peace
<b>12% Volatile Return</b>	<b>15% Stable Return</b>

“Peace is the ultimate asset class. We replace conflict with cooperation.”

# The 'Smart Clearing' Transaction Flow.

# Investor ROI: The 'Triple Yield' Advantage.

Financial return is protected by social stability.

# Risk Mitigation: Dignity is the Best Hedge.

**Zero Strikes.**  
Community is a shareholder and receives Basic Impact Income.

**Zero Fines.**  
Bio-mining exceeds 2026 environmental mandates.

**Zero Corruption.**  
Blockchain traceability prevents graft.

Liquid Governance ensures decisions are made by those with knowledge and stake.

# The Platform: PHREVO.io

Robinhood meets the United Nations. Transparent, accessible, liquid.

# The World is Ready. The Institutions are Pivoting.

Pivoting to “Systemic Health” and integrating impact into executive performance.

Adopting “Agile Impact” strategies to deploy capital.

## 2026 Context

The ‘Impact Premium’ is real. Companies with high impact scores access cheaper capital and retain talent at 2x rates.

**PHREVO** provides the rigorous standard these institutions are searching for.
